ADVANCED CANCER
VACCINES

PDC*line Pharma (www.pdc-line-pharma.com) is a clinical-stage spin-off of the French Blood Bank (EFS) that develops a new class of potent and off-the-shelf therapeutic cancer vaccines based on a proprietary cell line of Plasmacytoid Dendritic Cells (PDC*line).

Based on a robust preclinical package and a first-in-human phase Ib in melanoma, PDC*line Pharma has initiated a clinical development in lung cancer with a new candidate (PDC*lung) and neoantigens (PDC*neo).

PDC*line Pharma comprises a team of 27 persons based in Belgium (Liège, headquarters) and France (Grenoble). The company has raised nearly €52M in equity and non-dilutive money. The last rounds of financing have been led by the Asian leading Venture Capital company KIP (Korean Investment Partners).

In order to strengthen its team located in Liege (Belgium), we are actively looking for a :

Senior production Supervisor/Technician

In relation to the activities carried out by PDC*line Pharma, the person occupying the position of Senior Production Supervisor / Production Technician has the following characteristics

Responsibilities:

The responsibilities of the Senior Production Supervisor / Technician are as follows:

- Manage the production planning.
- Coordinate the production phases and ensure the good progress of the activities.
- Organize raw material and finished product inventories.
- Organize the work of the production team and maintain its team spirit.
- Ensure the maintenance and quality of the premises and equipment.
- Ensure compliance with GMP rules and regulations.
- Compile, treat and analyze production data.
- Write procedures, protocols and other documents related to production activities.
- Check documents (batch record, checklist, forms...) related to production activities.
- Manage IT systems related to production activities.

Qualification / Skills / Experience / Training:

The requirements for the Senior Production Supervisor / Technician are as follows:

- Be in possession of a scientific or technical degree with a minimum of a bachelor's degree
- At least 5 years' experience in a similar job and/or field (pharmaceutical or biotechnology company).
- Team leader and excellent communicator, quality conscious and customer oriented

- Flexibility and good adaptability.
- Rigorous and respectful of procedures, analytical mind.
- Proven experience in cell culture techniques (small-scale disposable bioreactors, in-line centrifugation, development of closed system production, filling, cryopreservation, working in isolators...)
- Experience in cell therapy or in handling cells of human tissue origin is a real plus
- Experience in validation of production equipment
- Knowledge of GMP
- Very good knowledge of French and English (written and oral). Knowledge of other languages is an asset.
- Knowledge of Microsoft Office and scheduling tools, demonstrated ability to manage production data in MES and ERP tools.

We offer :

- A diversified position with responsibilities within a fast-growing start-up.
- The opportunity to join a human-sized, dynamic and professional environment.
- A permanent contract and an attractive salary package in line with your experience.
